

What's New?

Purple to Red

The County of Marin has moved from the purple Covid tier to red which means businesses in Marin are beginning to open their shuttered doors to limited customer traffic. Unfortunately, gathering facilities like the Tam Valley community center and cabin are not included in this tier's opening opportunities. TCSD's playgrounds are included in the red tier opening plan and once they have been inspected will be re-opened. Everyone over age 2 must wear a mask, please bring your own hand sanitizer, kids must be supervised (one adult per household) and maintain 6ft distancing at all times, and be aware that the playground equipment will not undergo daily sanitizing.

What's New?

Recycling Drop Offs

The TCSD office at 305 Bell Lane is now open on Tuesdays and Thursdays by appointment only between 10:00am and 3:00pm for you to drop off the following items: batteries, florescent light bulbs, medicines, toner, electronics, cooking oil and cardboard. Please call 415.388.6393 to make an appointment. You may still leave a 2 foot by 2 foot stack of cardboard bundled with tape or twine alongside your recycle cart, but if you have over-sized cardboard or are making an appointment to drop off other materials please bring your cardboard to the yard.

What's New?

Bin Service

TCSD's bin service continues to be suspended due to the overwhelming amount of debris and green yard waste from the extraordinary number of residents working from home and cleaning out their garages and yards. We hope to restart this service sometime next year. In the meantime, please call Grange at 415.456.2712 or Mill Valley Refuse at 415.457.9760 or 1-800-Got-Junk and take advantage of their bulky waste programs.

What's New?

It Takes A Village

Last summer fire professionals said the flammable juniper in the Enterprise Concourse Island had to go. With help from a PG&E grant obtained by local Fire-wise communities, and the County's Tam Fire Crew, the juniper was removed in a matter of hours. Another grant was obtained from the County which paid for leveling the island and the placement of fire and wind resistant mulch. The last objective of this project was to upgrade a bench on the island, placed there as a tribute to beloved Tam Elementary volunteer, Tia Smirnoff. To do this, even more "villagers" participated: the school's PTA contributed a brand new, commercial grade bench, the nearby neighborhood of Marinview paid for landscaping the bench area, and TCSD contributed by assembling and placing the bench. Truly a community effort! Thanks to all.
